EUROPEAN DISTRIBUTION DIVISION

MedSupport Europe’s distribution division is committed to engage in a profitable partnership with healthcare professionals and their patients. We provide high quality and reliable healthcare solutions that improve treatment and care of patients in the hospital and in Home Care.

MSE specialises in the distribution of innovative medical devices and technology in homecare and rehabilitation in Europe. The quality of our work is based on strong dedication and profound insights into the needs of both patients and professionals. Our cooperation with selected manufacturers is geared to selected market segments.

At this moment MSE represents and distributes among other:
